Passion in every work

We are deeply passionate about providing compassionate, expert veterinary care to every pet that walks through our doors.

Teamwork that heals

We work hand in hand with pet owners, combining your deep understanding of your pet with our years of medical expertise.

Well-being at heart

We treat every animal as if they were our own, ensuring a lifetime of health, happiness, and tail wags.

Innovation in every treatment

We use the latest veterinary techniques and technologies to deliver personalized, cutting-edge care for your beloved companions.

SIMPLE STEPS FOR OUR VETERINARY CARE

[HOW IT WORKS]

02 | Health Assessment & Diagnosis

Our experienced veterinarians conduct a detailed check-up to identify any underlying conditions and provide an accurate diagnosis tailored to your pet's needs.

04 | Ongoing Support & Follow-Up

We continue to monitor your pet's progress, offering follow-up visits, advice, and support to ensure a full recovery and long-term health.

01 | Initial Consultation

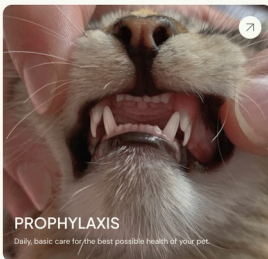

We begin with a thorough conversation to understand your pet's health history, behavior, and any current concerns you may have.

03 | Treatment & Care Plan

Based on the diagnosis, we create a personalized treatment plan, whether it's routine care, medication, or more intensive procedures.

ABOUT US

HERE FOR THE LIFE OF YOUR PET

At Dr.Paw Clinic, we are dedicated to providing compassionate, high-quality veterinary care for pets and peace of mind for their owners. With a focus on personalized service, our experienced veterinarians and friendly staff work together to ensure every visit is as comfortable as possible – for both pets and their people.

Whether it's a wellness exam, emergency care, or long-term treatment, we offer a full range of medical services tailored to your pet's unique needs. We treat every patient like family, because we know they're more than just pets – they're your loyal companions and cherished members of your home.

OUR SERVICES

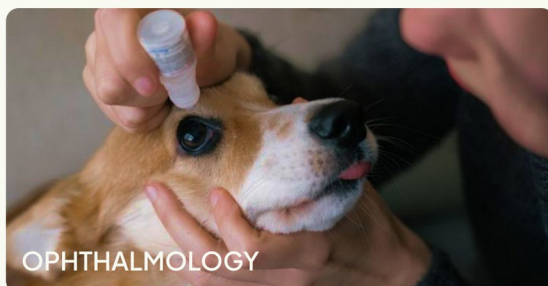

PROPHYLAXIS

At the VET-MED clinic we offer:

- antiparasitic prophylaxis – so-called deworming
- protection against external parasites
- protective vaccinations
- claw correction
- tick removal
- Dietary advice

and other services that facilitate and support the daily care of pets.

[Book your visit](#)

OPHTHALMOLOGY

In our clinic, we specialize in the diagnosis and treatment of eye diseases in dogs and cats, including:

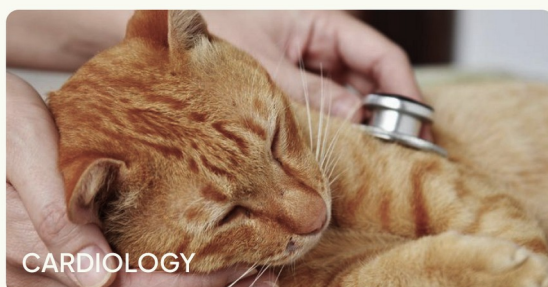

- Cataracts and lens disorders,
- Glaucoma and increased intraocular pressure,
- Corneal diseases and injuries,
- Retinal disorders and degenerative eye conditions,
- Eyelid abnormalities and tear duct issues,
- Inflammatory and infectious eye diseases (e.g. conjunctivitis, uveitis).

[Book your visit](#)

DERMATOLOGY

In order to detect the causes of diseases of the skin and its appendages, we perform:

- A thorough examination and dermatological interview
- Diagnostic tests for external parasites
- Histopathological examination (taking skin samples for testing), skin biopsies
- Skin scraping examination – collection of epidermis for microscopic examination
- Allergy blood tests (inhalant, food allergens, food intolerance)

[Book your visit](#)

CARDIOLOGY

The cardiology consultations and treatments we offer include:

- echocardiographic examination – ECHO of the heart
- electrocardiographic examination – ECG
- blood pressure measurement
- Chest X-ray
- pharmacotherapy of cardiovascular diseases
- ionogram
- thoracic and pericardial punctures guided by ultrasound probe
- oxygen therapy.
